## SUMMARY:

Full stack software developer ,front-end and back-end development beginner.

## TECHNICAL SKILLS:

- Frontend - JavaScript,React js ,Redux,Next js15, TypeScript
- Backend - Node js, Express js ,TypeScript
- Database - Mongoddb

## PROJECTS:

[\[Links\]](#): **Portfolio Website - This is my personal achievement**

**Tech-Stack:** Next.js,React.js ,Tailwind css ,Node js ,Express js, Mongoddb

- Designed and built a responsive personal portfolio using React and deployed it on Vercel. The site includes a professional overview, space for featured projects, and future integration for a blog and contact form.

[\[Links\]](#): **Hostel Website - For my hostel**

**Tech-Stack:** Next.js,React.js ,Tailwind css , node js ,Clock

- Created a responsive frontend for a hostel information portal using React,Next and Tailwind CSS. Focused on user experience, modular components, and scalable code structure. Deployed on Vercel for fast and global access. Designed for future MERN stack integration.

[\[Links\]](#): **Backend Repo - Here i uploaded my backend knowledge**

**Tech-Stack:** Express,Mongoddb,Mongoose,cloudinary ,Multer auth

- A structured collection of backend projects and practice work, demonstrating my hands-on experience with Node.js, Express.js, REST APIs, routing, middleware, and modular architecture. Continuously updated to reflect my learning journey in backend development.

## HOBBIES:

A tech enthusiast who codes for fun, plays volleyball and cricket, and enjoys building both software and team spirit.
